Profile

I am a Software Engineering student at FAST NUCES Peshawar, currently in my 4th semester. With a strong foundation in C++, Object-Oriented Programming, and Data Structures, I am passionate about building logical solutions to real-world problems. I am continuously expanding my skillset through projects and learning opportunities.

Education

BS Software Engineering

FAST - National University of Computer and Emerging Sciences, Peshawar

2023 – 2027

Languages

- English
- Urdu
- Hindko

Skills & Expertise

- Programming Languages: C++
- Concepts: Object-Oriented Programming, Data Structures
- Tools: MS Office
- Soft Skills: Problem Solving, Attention to Detail, Team Collaboration

Projects

- Inventory Management System
 - Developed in C++ during the first semester
 - Features include managing inventory items, stock levels, and categories
- OOP Multiple Gaming System
 - Created six different games using all Object-Oriented Programming concepts
 - Games include:
 1. Quiz Game
 2. Casino Game
 3. Word Jumble Game

4. Number Guessing Games
 5. Higher or Lower Game
 6. Word Search Game
- Instagram Clone
 - Developed a simplified version of Instagram focusing on core functionalities such as user registration/login, creating posts, viewing feeds, and interacting through likes and comments. The entire system was structured using fundamental Data Structures like **Stacks, Queues, and Binary Search Trees (BSTs)** instead of STL.
